LASER ENGRAVING (Eng)

Engraving on leather products

Engraving on plastic products

360 -degree rotary engraving

Our machines offer engraving on not only flat hard surfaces but also on round surfaces from only a few degrees up to full 360 degree engraving. Also, engraving is possible not only on metallic surfaces but also on non-metallic surfaces such as plastic (eg. Pens, bottles), Jute (eg. Jute bags), rubberized surfaces, hardboard surfaces (eg.Notebooks) and Leather surfaces (eg. Portfolios, organizers, wallets etc.)
UV PRINTING (UV)

Rotary 360 degree printing

Raised logo effect

UV printing gives way to printing on virtually almost anything, coated or uncoated, from plastics and glass to wood, metal silicon, leather, acrylic etc. This printing method is best for branding that involves gradation effect, articles that need edge to edge printing (flat surfaces) and 360-degree printing (round surfaces).

This technique also allows branding to be done in a way that gives appearance of depth and added gloss. Our raised print gives a 3D effect, which leaves conventional printing flat by comparison. Not only does the raised image present us with a visual treat, it is also a wonder to touch! It is also possible to raise certain elements of the print and keep the other elements flat.

Our machines are also capable of adding a gloss effect to a flat or raised print.

SILKSCREEN PRINTING (SC)
Screen printing gives high quality, long lasting results on flat surfaces. Inks are pressed through mesh stencils to produce clear, sharp images that are ideal for logos and text. Screen printing is ideal for large quantities.
Pad printing

Pad printing is a printing process that can transfer a 2D image onto an object. It's a commonly used decoration technique as it can be printed on all kinds of shapes and textures.

EMBOSSING DEBOSSING (Emb)
Debossing and embossing are two techniques used to imprint images onto paper, leather, or vinyl. In embossing, an image is pressed into the material so that the image raises from the surface. Debossing is the opposite of embossing; the area around the image is pressed so that the image is pushed down into the material rather than raised.

Embossing

Debossing
FOILING (FO)

Foiling is the application of metallic or pigmented foil on to a solid surface by application of a heated die onto foil, making it permanently adhere to the surface below leaving the design of the die. Foiling process requires a hard and flat surface.

Gold Foiling

Silver Foiling

EMBROIDERY

This traditional decorative technique is instantly recognized as a high quality feature that works really well for adding extra perceived value. Embroidery can be applied to both flat and irregular surfaces of all kinds of woven and knitted textiles; Widely used for polos, caps, jackets, uniforms,etc.

HEAT TRANSFER PRINTING (HT)
Heat transfer is carried out by creating a screen print image on paper and applying heat and glue to imprint the image onto the chosen article. This technique can be applied onto all kinds of woven and knitted products. This technique is preferred over screen printing when full color (CMYK) printing is needed.

DOMING EPOXY (DM)

Doming is a technique in which a clear resin is sprayed on a print. This produces a beautiful three-dimensional effect. The technique is used for a variety of applications, such as key chains, USB, Desksets etc.

The Only GIFT CATALOG that matters

A TEAM of technocrats, engineers, designers, IT & ERP professionals & millennials run the organization. We consider Quality, Functionality, Fair Purchase Pricing, Compliant Supply Chain and Uniqueness when selecting Product Lines and Vendors. We go for the Pioneers & the Path–Breakers, the brands you and your brands want to associate with.

1. Moleskine:

This Global brand is a case study by itself, on why a MOLESKINE Note-book is a definitive MUST- HAVE ASPIRATIONAL gift. No wonder, Moleskine Notebooks are coveted by CEOs, Senior Managers, Achievers and Royalty!! Smart Writing Tech Sets, Writing instruments & Premium Quality Leather Goods from Moleskine are acquiring the same status – the MUST-HAVE valuable articles of personal use. For most of us Moleskine Notebooks are the Rolex of Notebooks.

2. XD Design:

A brand from Holland, this is the first & only designer brand born to serve the Gifts & Promotions industry when generally aspirational brands originate for the retail industry and extend their arms to the gifts sector. The XD Design Studio is multinational & multicultural; every article is one-of-a-kind with a story to tell.

3. S-KROSS:

This popular Swiss company is the inventor of the modern travel adapter, one of the highest selling corporate gift products. After 15 years S-KROSS retains market leadership for safety, quality & design.

4. vivo | Villeroy & Boch Group

vivo | Villeroy & Boch Group is a lifestyle brand from Villeroy & Boch AG, which was founded in 1748. vivo combines traditional Villeroy & Boch German quality with functional design for everyday use.

5. Santhome:

This brand from the British Virgin Islands stands for quality & value, and has become one of the most recognized brands for polos, caps, bags, portfolios and tech items.

6. Otto Hutt:

Solid Sterling Silver Writing Instruments made entirely in Germany. Every individual piece is produced and handled like a piece of Jewelry. For over 100 years OTTO HUTT pens are a connoisseur's delight!

7. Tech & Wellness Products:

We have the latest game-changer collection of multifunctional & multiutility gadgets that are cool, useful and reliable. They change the life of the users dramatically by adding a lot of value, saving time, providing data and automating basic work.

8. Polo Shirts:

A very wide and unique range of polos and textiles from SANTHOME are available in ready stock; these are good for evening wear, gyms, weekend wear, and corporate uniforms. Shrink-free, color-fast and shape retention are characteristics that make these garments reliable and coveted!

We invite you to dive deep into this fabulous collection and select the gift that will be YOUR BRAND AND STORY MESSENGER, YOUR STORY TELLER!

Happy Browsing!!

eco-neutral

A4

ECO-FRIENDLY LEATHER
Leather Tanned
the Ancient way, now forgotten......
Before industrialisation, leather was tanned using
secretions from barks of trees (no chromium or aluminium
salts/chemicals were used). This slow & eco-friendly way has been
completely forgotten in today's fast-paced quick-profits world.
This eco-friendly real leather collection has been tanned
in a way that caused minimal damage (almost nil...)
to the environment. Also cotton lining have
been used to enhance the
eco-friendliness of products to above 95%.

3046 E - QEER
eco-neutral Real leather A4 folder with notepad. Consists of pockets to keep your important documents, credit cards etc. Packed in an eco-friendly box.

XD

ANTI SKIMMING

RFID stands for Radio-Frequency IDentification, it refers to a small chip with an antenna in small electronic devices (like your credit card). The card must be scanned to retrieve the identifying information.

Prevent unwanted capture of data from contactless or "Smart" cards issued by banks, governments and other institutions such as:

- Credit or debit card
- ID card
- Access / Security Control / School ID
- Health insurance, Medical ID
- Driver's licence
- Transit / Park pass

The RFID card holder provides an additional layer of protection, and protects against access by NFC-equipped Smartphones.

✓ RFID Protection

✓ Great logo space

✓ Easy access opening

✓ Value Proposition !

B

Typical measurements:-

	Gulf/Asian Sizes			Europe Sizes		
	M	L	XL	M	L	XL
A	28	29	30	29	30	31
B	21	22	23	22	23	24
C	8	8.5	9	8.5	9	9.5

These measurements are for guidelines only.
The actual measurements may vary slightly between
garments as knit garments have internationally
accepted higher tolerance values

1 x 1 m

GSM or GMS ?

Most manufacturers confuse clients with this. GSM: Grammes per sq. meter is the wt. of the fabric
in a square of 1 meter x 1 meter.it remains the same in all sizes. Hence the correct way to describe
GMS: is the wt. in grammes per piece of the Tee/Polo And will always vary with each size.
Thus, completely misleading. We ALWAYS specify the GSM. So you are rest assured of what we offer.
Heavier the better ?

Not necessarily. The quality of yarn will decide the quality and Price.
Super combed, Combed, semi combed and carded: this is
the quality of YARN in descending order.
We specify the yarn. So you are rest assured of what we offer.

What more we can offer:

You Are Welcome To Send Your Design Ideas And Originals. We Will Reproduce It For You..!

Item : BDNC | **Content** : Dryncool fabric with UV protection
**Measurement** : Gulf | **Sizes Available** : S, M, L, XL, XXL, 3XL

Dryncool is an advanced Moisture Management system (MMS) that helps keep the skin cooler & drier - more comfortable by transporting sweat to outer layer.

Executive wear.
Premium quality.
No-fuss performance.
Creaseless.

UV protection fabrics are rated between UPF 25-39. Ultraviolet protection factor(UPF) measures blockage of UV-A and UV-B rays. A UPF rating of 25-39 means that our fabric allows 1/25th to 1/39th (2.56- 4%) of UV radiation that falls on the surface of the fabric to pass through it.Thus, 96-97.4% of UV rays are not allowed to reach your skin thereby protecting the skin from sunburn and long term skin damage.

- Sun rays contain harmful UV rays which cause sunburn and damage to skin. This special polo uses a technology that prevents sunburn, long term skin damage and you can enjoy sun safely.
- Using MMS (Moisture Management System) technology, this fabric pulls out the moisture away from the skin to the surface of the fabric for quick evaporation, which keeps your body dry and comfortable. This PERFORMANCE fabric with MMS in the special Knit Design works as excellent Ventilation for free breathing of fabrics, making it more comfortable.

TECK

Light weight, Special Knit fabric, with DrynCool & UV Protection Function

Why the name Teck? It's Sports garment **Tec**hnology at its best! In this **K**nowledge-based world, the users will be the Young and the Not-So-Young who leverage their knowledge in the daytime and like to perform sports and work-outs in the other times.

White / Red

White / Navy Blue

White / Black

UV protection fabrics are rated between UPF 25-39. Ultraviolet protection factor (UPF) measures blockage of UV-A and UV-B rays. A UPF rating of 25-39 means that our fabric allows 1/25th to 1/39th (2.56- 4%) of UV radiation that falls on the surface of the fabric to pass through it. Thus, 96- 97.4% of UV rays are not allowed to reach your skin thereby protecting the skin from sunburn and long term skin damage.

UV protection system by Resil

This garment is treated with goodness of UV repellant system
